Acknowledgment of correspondence from residents. Trustee Johnson said that a resident had expressed concern over small children riding battery operated toy cars on the roads and running stop signs. There were concerns about the children running out into traffic and the risk of injury. They were asking for tighter regulations regarding electric

vehicles. Clerk Bergesen informed them that the new Illinois laws governing electric vehicles will begin after the first of the year.

Discussion from resident Aliza Murphy. Ms. Murphy addressed the board with concerns about her water bill. Director Toalson performed a data log and it was presented to the board. The concern was that there was a spike in water usage in the same month from the previous year and once again same month this year. The data log shows a spike over a week time frame. Trustee Klouser stated he wanted the neighbor's data logged to rule out a mechanical error. Deputy Coberley spoke with TJ from Ferguson regarding the possibility of a mechanical error. Per TJ when the meter begins to fail, it is in the resident's favor. The gears slow down and eventually stop. Trustee Klouser stated if it was a mechanical error they do not fix themselves. The board offered many suggestions for the resident to try. The discussion will continue at the next board meeting.
